

AUTOTRACK offers everything you need to begin tracking your valuable mobile assets. We provide active and passive GPS tracking system for business with fleets of all sizes.

We can offer you a range of ways to track you . From basic system to a client/server system for large or multi depot companies AUTOTRACK is a powerful vehicle tracking device that utilizes the GPS (Global Positioning System) technology developed by the Department of Defense. With amazing accuracy, it gathers miles driven on a daily basis, maintains time for billing records and produces comprehensive report on all vehicle travel activities. It is ideal for the busy executive, a concerned parent with a watchful eye to track their teenager's late night activity, AUTOTRACK can work for you. It's real time and money-saver and in some cases, a lifesaver!

The AUTOTRACK vehicle tracking system comes with mapping software capable of producing comprehensive details (on-screen and printable) for travel activities.
